CAREER OBJECTIVE

Dedicated and detail-oriented Java Full Stack Developer with strong knowledge of Java, Spring Boot, RESTful APIs, and frontend technologies like HTML, CSS, and JavaScript. Eager to contribute to the design and development of scalable software systems.

SKILLS

Programming Languages	:	Java , SQL, C++, JavaScript
Core Skills	:	DSA, OOP, Multithreading, Exception Handling
Backend Development	:	Spring Boot, REST API, JDBC, JPA (Hibernate), Maven, JUnit
Databases	:	MySQL, PostgreSQL
Tools & Technologies	:	IntelliJ IDEA, Postman, Maven, Git, Docker
Others	:	SDLC, Agile, Debugging & Problem Solving, Linux Commands

EDUCATION

Degree	College	Year	CGPA
B.Tech (CSE-IoT)	Meerut Institute of Engineering and Technology	2022 - 2026	7.8
12th	S.S. Inter College, BSEB	2022	73%
10th	ABR Foundation School, CBSE	2020	73%

PROJECTS

Employee Payroll Management System
Tech Stack: Java, Spring Boot, MySQL, Spring Security, REST API
- Developed secure REST APIs for managing employee details, salary structure, and attendance
- Integrated role-based access using Spring Security (Admin/HR/Employee)
- Auto-calculated salaries based on attendance and tax rules
- Used JPA for ORM and Swagger for API documentatio

Student Management System
Tech Stack: Java, Spring Boot, MySQL, REST API
- Developed CRUD APIs for student records
- Used JPA for ORM and Postman for testing

TRAINING

- Java Development Training – Internshala (Jun 2024 – Aug 2024)
- Spring Boot Crash Course – Udemy
- MongoDB for Java Developers – MongoDB University
- REST API Development Masterclass – Coursera
